

Component	Practical performance proposal
Level	SL
Candidate	C
Mark	6
Stimulus	Native American symbol for 'The four ages'

The proposal offers limited evidence of imaginative interpretation of the stimulus with unclear stage action loosely described and some limited references to staging ideas. There is no real evidence of a concept being considered to inform artistic choices. There are no signs of exploration of the stimulus for dramatic potential e.g. brainstorm/research. There is no concrete evidence of any understanding of production elements and how they function in performance.
